### Order by: CFRS

The CFRS UNIVERSAL HIGH / LOW SPLIT PAD heating system uses flexible carbon that is woven and provides the ability to trim or cut access holes for ease of installation. Additionally, the CFRS is a unique system designed for seats that use a "center listing" attachment system. This system is designed and manufactured to OEM specifications. The "add a fuse" included provides the installer a confident time saving solution for 12v hook-up. Your choice, leather or cloth, use the CFRS. The CFRS kit contains all the necessary components to perform a top quality installation.

The CFRS kit offers a 3 year / 36,000 mile limited warranty.
